Book	CUSD Policies
Section	B: School Board Governance and Operations
Title	Board Member Ethics
Code	BCA
Status	Active
Adopted	October 22, 2008

Board members will strive to improve public education, and to that end will:

- Attend all Board meetings insofar as possible, and become informed concerning the issues to be considered at those meetings;
- Recognize that decisions should be made only after discussion at publicly held Board meetings;
- Render all decisions based on the available facts and independent judgment, and refuse to surrender that judgment to individuals or special-interest groups;
- Encourage the free expression of opinion by all Board members, and seek systematic communications between the Board and students, staff, and all elements of the community;
- Work with other Board members to establish effective Board policies and to delegate authority for the administration of the schools to the Superintendent;
- Communicate to other Board members and the Superintendent expressions of public reaction to Board policies and school programs;
- Be informed about current educational issues by individual study and through participation in programs providing needed information, such as those sponsored by state and national school boards associations;
- Support the employment of persons best qualified to serve as school staff members, and insist on a regular and impartial evaluation of all personnel;
- Avoid being placed in a position of conflict of interest, and refrain from using their Board position for personal or partisan gain;
- Take no private action that will compromise the Board or administration, and respect the confidentiality of information that is privileged under applicable law; and
- Remember always that a Board member's first and greatest concern must be the educational welfare of the students attending the public schools.

Ms. Love used her Twitter account in her official capacity as a CUSD Board Member. She altered her profile after being called out for her alarming and unethical behavior, but it still using the same account. Both versions list the official CUSD website in her Twitter bio.

## Personal Attacks against Scott Weinberg

@llove85

Never forget that predatory and abusive people like this, who repeatedly stalk and harass women online are the exact reason we need CSE that focuses on respect for boundaries and consent.

**Scott** @KyreneP4P · 4h

Just a quick reminder that childless @ChandlerUnified board member @llove85 is obsessed with teaching kids about sex.

**Lindsay Love CUSD Board...** · 16h

Just a quick reminder that I still support comprehensive, medically accurate, age appropriate sex education. No matter what the fake medical associations that you tag me in say. #NotSorry 🙄

Hey Scott. No means no. But consent seems to be a concept you cannot understand. Can I help guide you to a good CSE program to help you understand boundaries [#Predator](#).

protect children, but he posts pictures of the children of elected officials, teachers and community leaders on his social media to encourage harassment of those children?

That's Scott for ya. Believing that women only have value if they have children. But then again, he's harassing several mothers in the community. Probably believes that their place should be in the kitchen instead of active community leaders. [#ToxicMasculinity](#)

Nobody would make it about race, gender or sexuality if Scott's criticism ended with policy only. This man has a track record of devaluing others based upon race, gender and sexuality. So it's quite frankly not me. It's him.

I'll be taking the silence of the "it's not about race or gender" crowd as being complicit in the racism, sexism and now fat phobia of Scott and his crew. Stay proving my points about toxic masculinity.

Sharing something that came up as public record on a google search is not doxxing. Sharing many screenshots where you were being anti black, fat phobic and sexist is not libel. Playing victim after harassing many community members though? That's got to have a name right?

Stalking his wife on Facebook is a stretch. It was just a private message to my understanding that amounted to hello. Is this your husband or something. Nothing in comparison to the things he's done to community members since, what? 2017?

That's all it took? Someone messaging his wife. Maybe she wears the pants in that family despite his many sexist requests for me to make him a "sammich." What's wrong dude? Your wife tell you to stop embarrassing her and your children on social media? Good for her.
